GRIFFIN DIAGNOSTICS

Griffin Diagnostics was founded in Yemen in 1996, in response to the growing local need for improved diagnostics. **Griffin Diagnostics** supplies both public and private laboratories with medical instruments and reagents from reputed international suppliers. **Griffin Diagnostics** has rapidly emerged as a preferred vendor in the field of medical diagnostics, scientific diagnostics and point of care and now supplies approximately 50% of the Yemeni diagnostics market. It maintains close relationships with its early suppliers, including Abbott USA and Human, and now represents six major international agencies. **Griffin Diagnostics** prides itself on its responsiveness to the market, offering access to advanced technology, flexible purchasing options, rapid delivery and excellent technical support. **Griffin Diagnostics** is a member of **Griffin Group**, and is an ISO9001:2000 certified company.
