GRIFFIN INTERNATIONAL

Griffin International is the technology arm of the **Griffin Group**. **Griffin International** specializes in IT security solutions and has a strong track record of successfully delivering in hardship countries and remote areas in the Middle East, West Asia and East Africa. From its headquarters in Yemen and offices in Dubai and Kenya, security contracts have been undertaken in places as diverse as Yemen, Dubai, Iraq, Kenya, Tanzania, Djibouti, Zambia, and Uganda. Clients include governments and security-conscious multinationals.

Since its creation in 1992, **Griffin International** has developed strong partnerships with primary security IT hardware suppliers, including Hewlett Packard, Dilettta, and Dell. Complementary products and services are sourced from industry leaders such as Oracle, Microsoft, Linux, Lockheed Martin, G&D, ESET, Accu-Time Systems, CISCO and 3Com. **Griffin International** continues to acquire high-tech IT and security solutions through supplier relationships, the purchase of existing security companies and in-house development of software applications.

OUR SERVICES

Griffin International operates as both a security systems integrator and developer, and a hardware/software provider. We provide consultancy and support services for:

- Security and secure document printing
- Security system integration, design and development
- Networking
- Hardware supply consultancy
- Support and training
- Pre-deployment consultancy, supply during deployment, and post deployment services
- Needs assessment site surveys
- System software design and development
- IT network design
- Hardware testing and commissioning
- System performance and usage monitoring

Our People

Griffin International employs experienced consultants, project managers, system analysts, integrators, programmers and data entry operators. **Griffin International** IT staff are experienced in site surveys, needs analysis, system design and development, integration, networking, testing and training, support and maintenance.
